PROFILE SUMMARY

Motivated B.Tech CSE student specializing in Artificial Intelligence and Machine Learning at Lovely Professional University. Interested in building intelligent systems that replicate aspects of human cognition to solve real-world problems. Currently developing skills in Python, AI/ML, data structures, SQL, GitHub, front-end development, and practical software project building.

EDUCATION

Lovely Professional University (LPU) B.Tech Computer Science and Engineering, AI & ML	2025 - 2029 3rd Semester
Sri Chaithanya Junior College Intermediate	2023 - 2025
Nehru CBSE High School CBSE - 10th Class	2022 - 2023

TECHNICAL SKILLS

Programming	Python, JavaScript, HTML, CSS
AI/ML Foundation	Artificial Intelligence, Machine Learning fundamentals, model thinking
Computer Science	Data Structures, Problem Solving, Algorithms basics, logical thinking
Tools & Databases	SQL, GitHub, Git, VS Code, project documentation

PROJECT EXPERIENCE

School Management App

GitHub: github.com/udaykumar8688/school-management-app

- Built a practical school management application to manage student and school-related information in a structured way.
- Gained hands-on practice with application development, user interface design, database handling, and real-world problem-solving.
- Published the project on GitHub and featured it on LinkedIn and the portfolio website for professional visibility.

PYTHON PRACTICE PROJECTS

Band Name Generator, Tip Calculator, Treasure Island, Rock Paper Scissors, Password Generator

CORE STRENGTHS

- Strong interest in AI/ML, intelligent systems, and practical software development.
- Quick learner with a project-building mindset and willingness to improve through feedback.
- Good communication, logical thinking, documentation, and public profile presentation.

LANGUAGES

Telugu: Fluent | Hindi: Above Intermediate | English: Above Intermediate | Japanese: Basic

CAREER OBJECTIVE

To grow as an AI/ML and software development professional by contributing to internships, hackathons, open-source projects, and practical applications that create useful real-world impact.
